Objective

I am a cyber security researcher, CTF player, Bug hunter with 1 year of experience in web application vulnerability assessment and penetration tester. With the experience that I have gathered throughout the process, I believe that I will be a qualified candidate to join as a cyber security specialist. I am looking forward to join the team and prove myself and contribute while learning new things.

Experience

HACKER-ONE (BUG HUNTER)

2022 – PRESENT

I have been working as an active bug hunter on Hackerone and have managed to find valid bugs on several programs and helped them to secure their sites.

<https://hackerone.com/usagib4>

BUG CROWD (BUG HUNTER)

2022 – PRESENT

I have been hunting on Bug Crowd for several months and I was successful in finding valid bugs.
